

# Hardwood Care and Maintenance

Residential / Hardwood / Care and Maintenance

**You can protect your Mannington Hardwood Floor by following these easy guidelines.**

- Wood is a natural product that lives in a comfort zone of 35% - 55% relative humidity, and between 60 and 80 degrees Fahrenheit. To ensure the long life of your wood floor, the HVAC system should remain active at all times.
- Sweep or vacuum regularly, since built-up grit can damage the finish and surface of hardwood. The vacuum head must be a brush or felt type. Be certain the wheels of the vacuum are clean and do not damage the finish. Do not use a vacuum with a beater bar head.
- Remove spills promptly using a soft cloth and cleaning products recommended by Mannington.
- Never mop or flood your floor with water or other products. This can severely damage the flooring.
- The use of Mannington maintenance and floor-care products is highly recommended.
- Do not use oil soaps, liquid or paste wax products or other household cleaners that contain lemon oil, tung oil or ammonia.
- Keep pets nails trimmed and paws clean and free of dirt, gravel, grease, oil and stains.
- Use a dolly and protective sheets of plywood when moving heavy objects.
- Make certain furniture casters and floor protectors are clean and operate properly minimum of 1" continuous width is recommended).
- Remove shoes with spiked or damaged heels before walking on the floor.

## Hardwood Stain Solver

Even stubborn stains can be removed from your Mannington Wood Floor quickly and easily. Here's how to keep yours looking like new:

- Start with the first procedure listed.
- Only do the procedures necessary to resolve the problem. Always use a clean white cloth for wiping up stains, and turn it frequently to avoid spreading the stain.
- Rinse with clean water and allow area to dry between procedures.
- For items not covered by the following chart, call Mannington Consumer Services at 1-800-FLOOR-US (1-800-356-6787).

Stain/Problem	Procedure
Candle wax, chewing gum	Fill a plastic bag with ice and put it on the wax or gum until it becomes brittle enough to flake off. Then wipe area with a clean cloth dampened with mineral spirits. With a clean cloth gently wipe any remaining particles off.  Scrape excess off with a dull knife.
Cigarette burns	For shallow surface burns, rub gently with fine steel wool coated lightly with mineral spirits. For deeper burns, scrape away charred areas with a small dull knife. Then rub the surface with fine steel wool and mineral spirits once more. Use the Mannington touch-up kit to finish.
